Mr. Michael T. Langston
Senior Vice President
Government and Regulatory Affairs
Transwestern Pipeline Company
5444 Westheimer Road
Houston, TX 77056

Dear Mr. Langston:

As you know, siting needed infrastructure is a difficult task - a balance must be struck between protecting existing homes and businesses and controlling costs. I am writing you to encourage Transwestern to listen to the concerns of those impacted by the route of your proposed natural gas pipeline in Arizona.

Arizona needs this pipeline. The issue before FERC is where to put it. I understand that Transwestern has proposed only one route; I would urge you to seriously consider all the alternatives and to suggest a route that will encroach upon existing homes and businesses to the least extent possible. Minimizing the impact on the environment and ensuring safety are important factors that should be considered in the siting process.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "William A. Mundell".

William A. Mundell, Commissioner
Arizona Corporation Commission
